

FIVE APPLE
Farm

Event Venue Description

Our beautiful venue offers multiple spaces to mingle and make memories. We have a wedding lawn, an outdoor wet bar and dance floor/party patio, covered porches, and an enclosed event barn with multiple access doors on each side.

The beautifully-constructed event barn is temperature controlled, has a gorgeous wood-burning fireplace, a massive chandelier, and offers a bar and warming kitchen (so you can choose your own caterer and supply your own alcohol - to be served by a licensed bartender). It is equipped with internet and high tech equipment for all your audiovisual needs - a large smart tv, microphones, and portable speakers for sound throughout. And of course, it has two spacious bathrooms for your guests' comfort and convenience.

The two covered porches adjacent to the event barn may be enclosed or left open-air and are connected to the large patio/dance floor with string cafe lights overhead for the perfect fun, party vibe. It's a great space for cocktail hour, accented by our whiskey barrel table, a favorite for mingling or serving hors d'oeuvres. The large wet bar at the back of the patio features a grill, cooking eye and two large utility sinks.

Beyond the patio a rock walkway runs by a fire pit and up to the lush wedding lawn that can double as a mingling and game space (corn hole). Above the lawn, our bocce ball court can entertain into the evening with it's own set of "twinkly lights".
